Why You Should Never Put a Souvenir Stamp in Your Official Passport

On page five of each and every U.S. passport international travelers will find that “Alteration or Mutilation of Passport,” is unauthorized and “only authorized officials of the United States or of foreign countries may place stamps or make notations or additions to this passport.”

The Department of State advises U.S. citizens to avoid the use of novelty stamps in the U.S. passport. The Department could potentially consider novelty stamps as “damage” to the U.S. passport. foreign country to prevent entry at the border,

However, that doesn't mean you need to forgo getting the novelty stamps altogether. Rather than mark up your official documents pick up a souvenir stamp collecting journal to place all your memories in instead. This way, you'll always be able to get home on time.

Alaska Cruise Season Cancelled as Canadian Government Bans Cruise Ships for 2021

The Canadian Government on Thursday issued a new order which will prohibit cruise vessels in all Canadian waters until February 28, 2022.

The ruling effectively kills the Alaska cruise season for foreign-flagged ships as well as other cruise seasons in the Great Lakes and Canada/ New England for ships under foreign flag. Only a handful of smaller ships fly a U.S. flag and don't need to visit a foreign port (Canada) to satisfy the U.S. Jones Act.

"Cruise vessels carrying 100 or more people are still prohibited from operating in Canadian waters," said the order, also noting that passenger vessels carrying more than 12 people are still prohibited from entering Arctic coastal waters, including Nunatsiavut, Nunavik, and the Labrador Coast.

"As Canadians continue to do their part to reduce the spread of COVID-19, our government continues to work hard to ensure Canada's transportation system remains safe. Temporary prohibitions to cruise vessels and pleasure craft are essential to continue to protect the most vulnerable among our communities and avoid overwhelming our health care systems. This is the right and responsible thing to do," said The Honourable Omar Alghabra, Minister of Transport.

Once we are officially notified by each cruise line, we will be in touch with the clients involved and advise of options offered.

United Launches Website, App Feature to Manage Travel Entry Requirements

United Airlines has developed a "Travel-Ready Center" for its website and app in which travelers can view and manage Covid-19-related entry requirements specific to their itineraries. Upon its launch on Monday, the feature lists requirements specific to your destination, including a list of Covid-19 testing options that you can use, and lets you upload required testing or vaccination documentation. Designated United personnel will verify documentation after travelers upload it, and once all requirements are met, passengers can get their boarding passes prior to arriving to the airport.

Rio de Janeiro's Famed Carnival Has Been Canceled for 2021

Less than a year ago, the streets of Rio de Janeiro were filled with people — friends and strangers alike — reveling maskless within a six-foot radius for Carnival, the city's annual celebration of colorful costumes and extravagance. Little did they know at the time, but the late February event would be one of the last semblances of any crowd-inducing tradition held anywhere on the globe. And on Feb. 26, 2020, the last day of Carnival, Brazil confirmed its first case of COVID-19.
